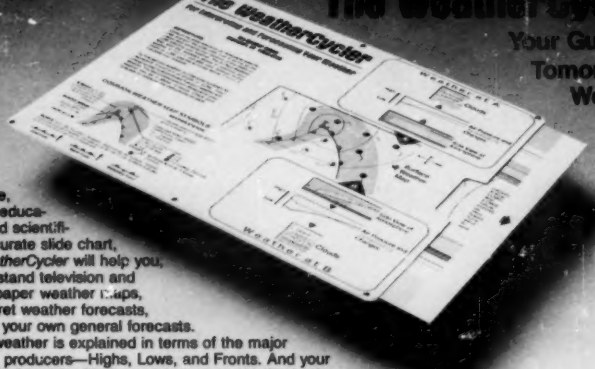
The WeatherCycler
Your Guide to Tomorrow's Weather



A durable, colorful, educational and scientifically accurate slide chart, *The WeatherCycler* will help you:
- understand television and newspaper weather maps,
- interpret weather forecasts,
- make your own general forecasts.

Your weather is explained in terms of the major weather producers—Highs, Lows, and Fronts. And your forecast is found by flipping to windows on the back of the chart.

The WeatherCycler is an exciting learning device and teaching tool for ages 9 to 99. It's fun to use and a great gift for pilots, sailors, travelers, farmers, and everyone fascinated by the weather.

The WeatherCycler with instructions . $6.95, S&H $2.00
